STABALIA

 **STABILIA** – Where Balance Becomes Power is a self-balancing robot competition.

STABILIA is a hands-on technical workshop designed to prepare volunteers and participants for the Self Balancing Robot Contest.

In this workshop, participants will gain practical experience in designing, building, and programming a DIY self-balancing robot from scratch. The session focuses on both hardware integration and control logic, enabling participants to understand how balance, sensors, and algorithms work together in real time.

This workshop is for volunteers willing to assist in the main contest and highly recommended for participants who want a strong technical foundation before competing.

By the end of the workshop, participants will:

Understand the working principle of self-balancing robots

Assemble a DIY self-balancing robot

Learn sensor calibration and PID control

Write and test embedded code

Be fully prepared for the STABILIA Contest

 **Brainwaves 2K26 Coordinators**

Swanand Shenai – 78759 80043

Anushka Talawadkar – 87674 20372

 **STABILIA Coordinators**

Sahil Parab – 90227 36253

Niranjan Kolwankar – 94233 75322

 Be part of STABILIA and help turn balance into power.
